UVstick
SmartClean
Made in India

Quick to sterilize -
Within 3 seconds

Easy to carry

Assured results

Compact, fits
in your pocket

**Highly
effective
for killing
Corona
virus**

Sterilize on the go!

Sterilize on the go with 'SmartClean' portable sterilizer. Sterilizes up to 99% within a few seconds, 'SmartClean' is easy to carry and perfectly fits in your pocket. Durable for long lasting usage with assured results, the sterilizer uses ultraviolet (UV-C) rays to directly destroy the bacteria and viruses. Sterilize any surface (except skin and eyes), like daily usage products, travel accessories, clothes, hair and make-up accessories, medical instruments, stationery items, soft-drink cans and tetra packs of foods or beverages, etc.

Smart Feature

- **Manual mode:** Items can be sterilized by holding SmartClean in many different angles
- **Auto mode:** This is a safety feature which allows SmartClean to sterilize items when held pointing only downwards

Applications:

Daily use products

Hair & make-up accessories

Travel accessories

Soft-drink cans and tetra packs

Medical instruments

Vegetables and fruits

Clothes

Stationery items

Packed foods
